Ø 7,9 x 4,6 cm

RECYCLED ABS

I principali vantaggi della plastica ABS sono il suo punto di fusione relativamente basso e la sua temperatura di transizione vetrosa, che ne facilitano la fusione e l'utilizzo nello stampaggio a iniezione. Grazie a questo, è considerato un materiale molto versatile e perfetto per un gran numero di applicazioni.

Quando parliamo di RABS, ci riferiamo a un materiale riciclato post-consumo. È caratterizzato da approvvigionamento sostenibile e bassa impronta di carbonio.

ABS plastic main advantages are its relatively low melting point and its glass transition temperature, which makes it easy to melt down and use in injection moulding. Thanks to this, it is considered a very versatile material and perfect for a great number of applications.

When we talk about RABS, we refer to a post-consumer recycled material. It is characterized by sustainable procurement and low carbon footprint.

Legno di Acacia
Acacia wood

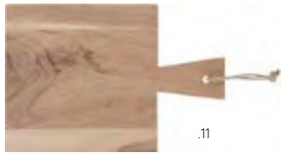

Se vuoi un tagliere che abbia tutti gli aspetti importanti da cercare (**durevolezza**, **bellezza** e **resistenza**), non guardare altro che un tagliere in legno di acacia. È anche versatile: parte della bellezza di questo legno è che può essere utilizzato come piatto da portata dopo essere stato utilizzato come tagliere. L'acacia è in realtà una scelta intelligente per un tagliere.

Il legno è estremamente durevole, resistente all'acqua e resiste ai graffi. Anche gli alberi crescono rapidamente, rendendo la loro raccolta sostenibile.

*If you are looking for a cutting board that has all of the important aspects to look for (**durability**, **beauty** and **resistence**), look no further than an Acacia wood chopping board. It's versatile too – part of the beauty of this wood is it can be used as a serving platter after being used as a cutting board. Acacia is actually a smart choice for a cutting board.*

The wood is extremely durable, water resistant and resists scratching. The trees grow quickly too, making harvesting them sustainable.

SEAQUAL

What is the SEAQUAL initiative? It is an initiative that seeks to challenge the plastic pollution of our oceans by cleaning up marine litter and promoting an increasingly sustainable society.

SEAQUAL fabrics are made with polyester yarns from recycled materials from the sea, thus helping to preserve natural resources and keep the oceans clean.

With a production process with controlled traceability, most of the plastics collected are recycled and transformed into yarns based on responsible processing. The result is a fabric that meets all quality standards.

Plastica riciclata
Recycled plastic

L' R-PET viene creato riciclando materie plastiche precedentemente utilizzate come materiali di imballaggio. Questi includono bottiglie di plastica, per esempio. Una volta raccolto, viene smistato e pulito, dopodiché viene trasformato in R-PET, che può quindi essere utilizzato per nuovi imballaggi. Questo è approvato a livello federale e significa effettivamente che puoi dare a ogni bottiglia una nuova vita.

R-PET is created by recycling plastics that were previously used as packaging materials. These include plastic bottles, for instance. Once collected, it is sorted and cleaned, after which it is transformed into R-PET, which can then be used for new packaging. This is federally approved and effectively means that you can give each bottle a new lease of life.

ALUMINIUM BOTTLES

Perchè scegliere l'alluminio?

L'alluminio è notevole per la sua bassa densità e la sua capacità di resistere alla corrosione attraverso il fenomeno della passivazione. L'alluminio non è tossico come i metalli pesanti. È classificato come non cancerogeno dal dipartimento della salute e dei servizi umani.

- Peso leggero
- Protezione UV
- Resistente alla corrosione
- Non magnetico
- Non combustibile
- Riciclabile

Why choose Aluminium?

Aluminium is remarkable for its low density and its ability to resist corrosion through the phenomenon of passivation. Aluminium is not as toxic as heavy metals.
It's classified as a non-carcinogen by the United States Department of Health and Human Services.

- Light Weight
- UV Protection
- Corrosion Resistant
- Non – Magnetic
- Non – Combustible
- Recyclable

STAINLESS STEEL
BOTTLES COLLECTION

Perché usiamo l'ACCIAIO?

È usato perché è:

- non tossico
- non assorbente
- resistente agli acidi
- stampabile con incisione laser

Why do we use STEEL?

It's used because it is:

- non-toxic
- non-adsorptive
- acids resistance
- laser engravable

Perchè scegliere l'acciaio inossidabile?

L'acciaio inossidabile è particolarmente noto per la sua resistenza alla corrosione. Le aggiunte di molibdeno aumentano la resistenza alla corrosione nella riduzione degli acidi e contro l'attacco corrosivo nelle soluzioni di cloruro. Pertanto, esistono numerosi gradi di acciaio inossidabile con diversi contenuti di cromo e molibdeno per adattarsi all'ambiente che la lega deve sopportare. La resistenza alla corrosione e alle macchie, la bassa manutenzione e la lucentezza familiare rendono l'acciaio inossidabile un materiale ideale per molte applicazioni, in particolare cibi e bevande.

Why choose stainless steel?

Stainless steel is most notable for its corrosion resistance. Additions of molybdenum increases corrosion resistance in reducing acids and against pitting attack in chloride solutions. Thus, there are numerous grades of stainless steel with varying chromium and molybdenum contents to suit the environment the alloy must endure. Resistance to corrosion and staining, low maintenance, and familiar luster make stainless steel an ideal material for many applications expecially food and drink.

tritan™

Che cos'è il tritan?

Il tritano è un polimero ed il polimero è una sostanza formata dalla combinazione di diverse molecole identiche (monomeri) tra loro. È senza BPA e non contiene il bisfenolo A. È definito come materiale di nuova generazione perché presenta eccellenti caratteristiche quali: resistenza alle temperature e possibilità di essere lavato frequentemente.

È usato perché è:

- non tossico
- frequentemente lavabile
- resistente alle alte temperature
- senza il BPA
- stampabile

What is tritan ?

Tritan is a polymer which is a substance formed by the combination of several identical molecules (monomers) between them. It is BPA-FREE and it does not contain the toxic chemical Bisphenol A.
It is defined as a new generation material because it has excellent characteristics such as: resistance to temperatures, possibility of being washed frequently.

It's used because it is:

- non-toxic
- wash frequently
- resistance to high temperature
- BPA-FREE
- printable

Perché utilizzare la fibra di pietra?

Materiale estratto dalla pietra naturale, che conserva diverse proprietà come la durabilità e la conservabilità. La scelta più ecologica per sostituire la plastica.

Diventare ecologici è essenziale per la creazione di una terra sostenibile che richieda meno gas serra, conservazione della natura, nessun inquinamento atmosferico e nessun riscaldamento globale. È possibile con l'uso di prodotti riciclati, utilizzando pratiche di riduzione dei rifiuti che rendono il globo un luogo perfetto in cui vivere nelle nuove generazioni.

Why using stone fiber?

Material extracted from natural stone, that retains several properties such as durability and preservability.
The most eco-friendly choice to replace plastic.

Going green is essential for the creation of a sustainable earth that requires less greenhouse gases, nature conservation and suffers no air pollution or global warming. It is achievable with the use of recycled products, employing waste reduction practices that make the globe a great place to inhabit for the next generation.

Cartoncino Riciclato | Recycled Cardboard

14,5 x 21 cm

Notebook made with the recycling of milk cartons

The Components of Milk Cartons.

Milk Cartons are made up of a number of components which are layered:

- Paperboard (made from wood)
- Polyethylene (a type of plastic)
- Aluminum.

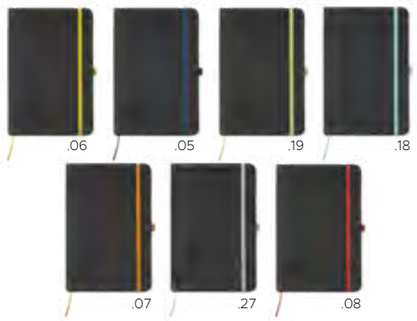

Milk Cartons are Recyclable!

When recycled, milk cartons can go on to be transformed into new paper products as well as eco-friendly materials rather than end up in a landfill.

FAIR TRADE COTTON

Fair trade is a global movement made up of a diverse network of producers, companies, consumers, advocates, and organizations putting people and planet first.
Fair trade is a way to make a conscious choice for a better world. A choice for Fair Trade Certified™ goods is a choice to support responsible companies, empower farmers, workers, and fishermen and protect the environment.

BESPORTIVE

La linea SPORT BESPOKE offre ad appassionati e sportivi il massimo del comfort con il vantaggio di un capo completamente personalizzato.

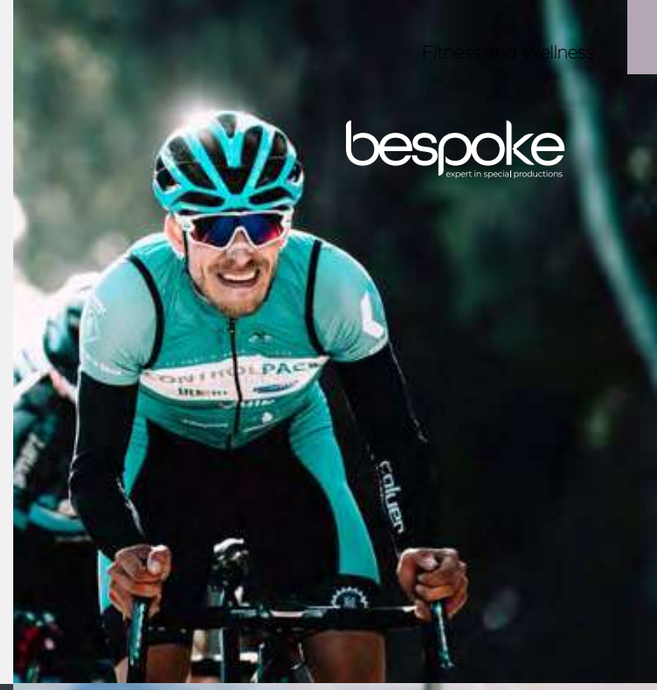

Il kit nasce da un rotolo di tessuto 100% poliestere che viene prima personalizzato in sublimazione, poi tagliato a laser ed infine cucito in sartoria.

Grazie a questo processo, è possibile realizzare capi unici che grazie al tessuto 100% poliestere a fibra elastica avranno colori sgargianti e duraturi (anche dopo diversi lavaggi), ma anche una perfetta aderenza al corpo, per movimenti fluidi e funzionali.

The BESPOKE SPORT line offers passionate sportspeople maximum comfort with the great advantage of a completely customized garment

The kit comes from a roll of 100% polyester fabric that is first personalized in sublimation, then laser cut and finally carefully sewn.

Thanks to this process, it is possible to create unique garments that, thanks to the 100% polyester fabric and elastic fiber, will have bright and long-lasting colors (even after several washes), but also a perfect adherence to the body, for fluid and functional movements.

YOUR IDEA TODAY CAN BECOME REALITY

BESPOKE, un brand creato per offrirti un servizio import esclusivo.
Ciò che può essere immaginato, può essere realizzato!

Offre un servizio esclusivo di sviluppo del prodotto, dal design sino alla realizzazione e certificazione dell'intero processo produttivo. Fornire un servizio import completo nello sviluppo di un marchio o nella realizzazione di campagne promozionali richiede una certa professionalità. **BESPOKE**, con più di 40 anni di esperienza nel mercato orientale, rappresenta il partner ideale.

Attraverso i nostri processi produttivi, **BESPOKE** può realizzare qualsiasi tipo di prodotto, dall'abbigliamento promozionale alle divise da lavoro e DPI, così come oggetti promozionali ideali per qualsiasi occasione e/o attività promozionale.

BESPOKE, a new brand for an exclusive import service.
What can be imagined, can be developed!

It offers an exclusive service of product development, from designing and sourcing, to the realization and certification of the whole process.

It requires a well-rounded professional in import to promote ones' brand in an effective manner. That is why **BESPOKE** is the ideal partner to support you through this process, with its more than 40 years' experience in the eastern market.

Through our production processes, **BESPOKE** is able to produce any kind of product, from promotional clotheslines to work uniforms and PPEs – but also promotional items suitable for any occasion and / or merchandising.
